”

The home of
tomorrow,
today !

With Smartspace, your home becomes a connected space that makes your life simpler, safer and more entertaining.

Our home automation solutions are designed to make your mornings easier and your nights calmer while enabling you to save big on energy consumption. Smartspace handles your day to day chores and stresses, while you can focus on what's truly important. With our tech, feel safer than ever.

make every
home a
smartspace

Dealing with multiple brands, their own ecosystems, different compatibilities, very high pricing and varying quality standards has made owning a smart home an impossibility for its aspirants. Smartspace is on a mission to ensure that it not only reaches out to everyone as a mere concept but as a fully experienced reality and make every household experience Fine Living.

unparalleled convenience

your home in your hands

Use Smartspace to monitor and manage your home settings from anywhere in the world and have all your appliances, lighting and security at your finger tips using the Smartspace™ app. Experience the magic of connectivity and unparalleled convenience.

security simplified

give your worries a break

Use our devices to monitor your home inside from your smart phone. Get notified when your kids are back from school or when any intrusion is attempted, keeping your loved ones safe & secure. With Smartspace, security is more effective.

AUTO PILOT HOME

a home
that
works on
your
schedule

Now your home can keep up with your busy schedule. Smartspace lets you automate your home so your mornings are easier and your nights are calmer. Pre-schedule or pre-program your devices from your smartphone to follow your routine.

5:30 AM - GEYSER TURNS ON

6:00 AM - CURTAINS OPEN

7:30 AM - COFFEE READY

1 PM - VACUUM CLEANING

3 PM - WASHING MACHINE ON

6 PM - PORCH LIGHTS ON

smartspace

is energy efficient & eco friendly

Smart homes save energy and heat, which is why they are eco-friendly and can even be cheaper to live in. The beauty of the way in which smart homes save energy is the elegance of it. They don't restrict your energy consumption nor do they try to force you into doing so. Instead, they keep track of your lifestyle and find ways to optimize energy usage. Furthermore, they are designed to make the most out of available energy. If you factor in all of that, it is no surprise that smart homes can sometimes **save 30-40 %** of energy. And how do smart homes manage to save so much energy? Well, here are a few ways how.

Smartspace lets you monitor and manage compatible home appliances to check energy usage, compare it with others and use saving functions to lower your energy bill. Our room occupancy sensors, AC and geyser automations amongst others help reduce energy wastage significantly.

why choose
smartspace

easy installation

Our products are fast, non-disruptive and easy to install and can be quickly setup without the need for renovation/rewiring.

support & service

Our team works diligently to make a smart home journey very easy to adapt to for our customers through world class online and offline support at each step.

affordable

Our solutions are designed to make them accessible to common public. Our pricing ensures smart homes can be a reality for each and every household.

customisability

Our solutions can be easily configured to be integrated to your current ecosystem and suits to both prebuilt & traditional as well as newly made infrastructures.

talk to your home

smartspace works with

GOOGLE

ALEXA

SIRI

All of Smartspace's devices and products can be operated using voice commands. Just say it to your inbuilt phone voice assistants or smart speakers like Amazon Echo, Google Home and Apple Homepod and let them do the rest.

"alexa, turn
on the
light."

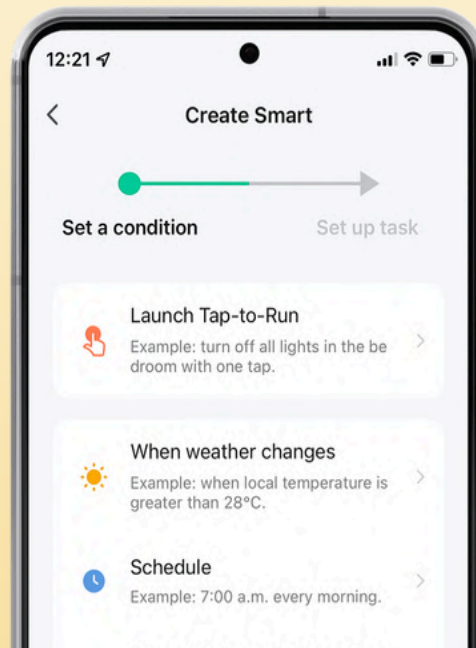

"hey google,
open the
curtain."

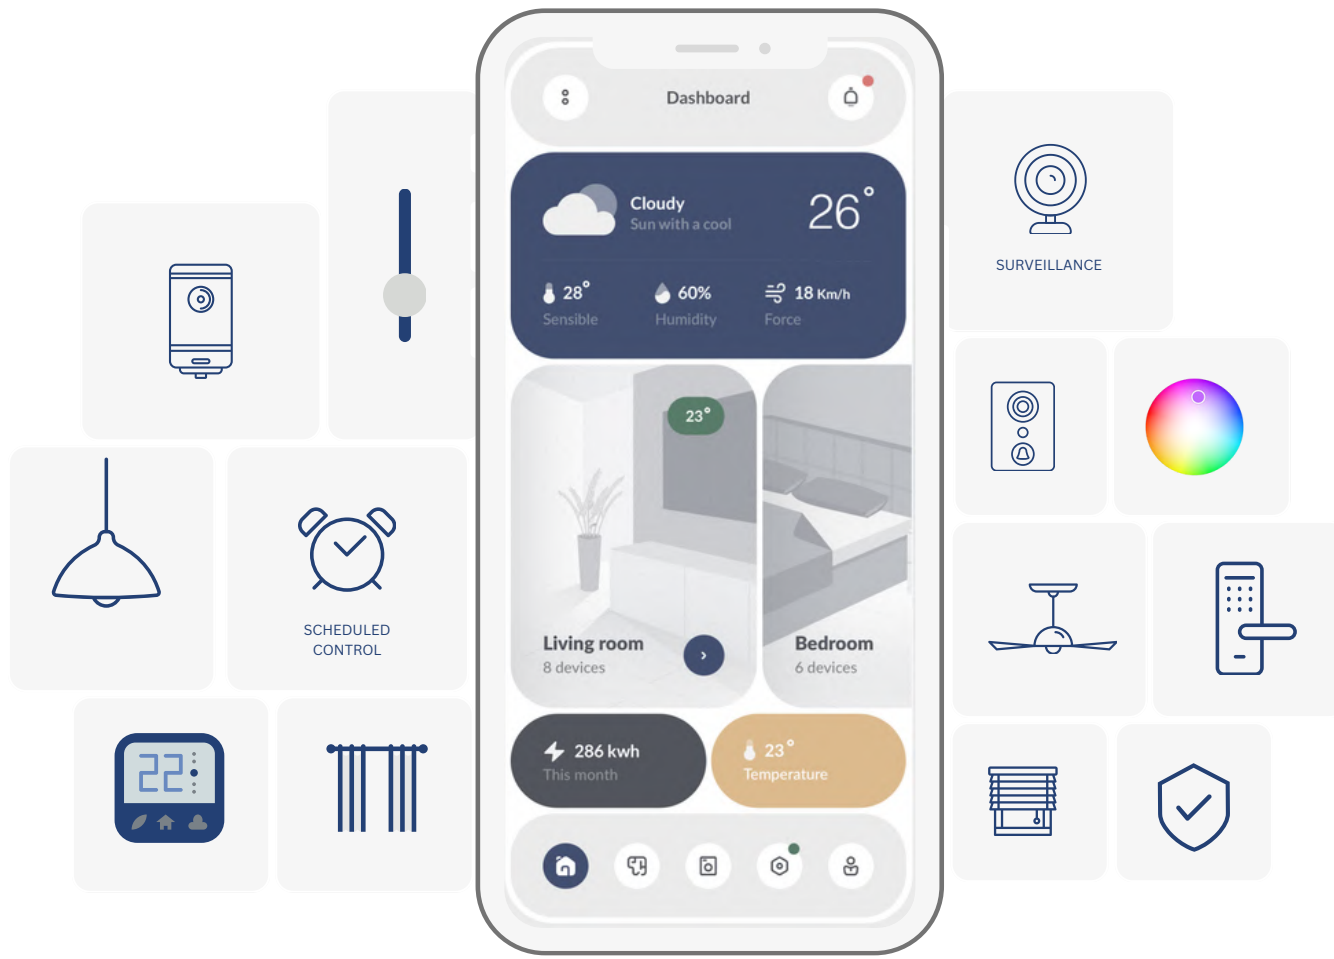

smartspace

MOBILE APPLICATION

A single experience that supports your whole home

home control, simplified

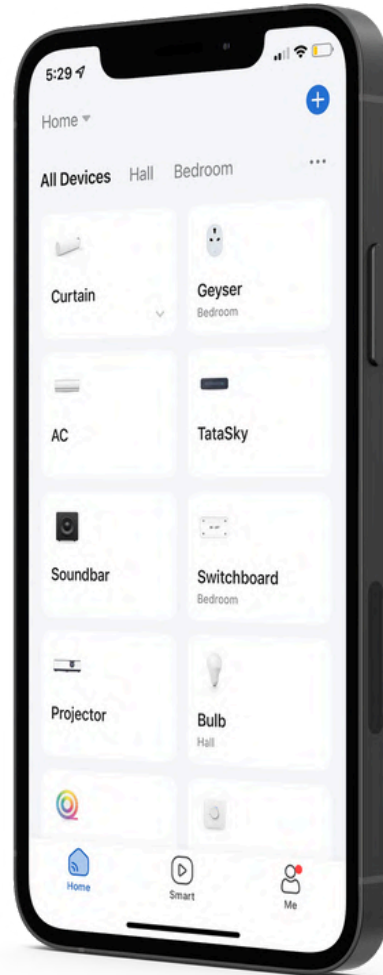

Get your house in order room by room. Arrange all your smart devices based on rooms.

Share access of all the smart devices to your family members in just a click.

Get notified when certain events occur. Take appropriate action through the app.

Effortless user experience and easy use has been kept in mind while designing the app.

With widgets, access all your scenes and devices right from the phone's home screen.

Customize your home automations and set schedules or routines for your smart devices.

OUR SOLUTIONS

Smartspace is a one stop solution for its smart home customers. With one ecosystem, managing and adapting to a smart home becomes much easier for the user. With everything controllable using a single app, the user can easily create automations and control multiple devices with one click of a button. All our devices are equipped with the latest technologies of IFTTT which makes them self reporting.

experience the joy of safety !

Equipped with a 600 MHz high-speed smart MCU our cutting-edge Security System employs the latest in sensor technology. Listed below are some of it's key features -

A stand-alone smart security system offers you three forms of protection: burglary, fire and emergency.

Remote Access: Users can access their systems through Smartspace App even when they are physically away from them.

Offline Operation : The systems continues to guard your home even in the absence of internet or power. Low battery alarm & anti-dismantling alarm makes it further unbreachable.

Instant Alert: The panel supports use of a sim card. 5 preassigned numbers get an sms/call to alert them of any security/safety breach.

FAQ

What is the anticipated cost for implementing your solution?

We offer customised solutions for every budget, with packages ranging from ₹20,000 to ₹100,000 per room. We have a highly transparent pricing structure, devoid of any hidden fees.

Can I control my smart home remotely?

You can monitor and control your devices from anywhere in the world using the Smartspace mobile app.

Can the smart devices work when internet connectivity is down?

In such cases, all smart devices continue to work manually. Within the same WiFi network, you can control most devices using the Smartspace app, even without internet.

Will I need to rebuild my home to make it smart ?

Our products are fast, non-disruptive, and easy to install, requiring no renovation or rewiring. Transform any home into a smartspace in under 4 hours with no wall damage.

I'm building a new home, at what stage of construction should I contact you ?

We can turn your home smart at any stage. For new constructions, contact us before electrical wiring to plan efficiently and cost-effectively.

What are your warranties ?

We offer an on-site replacement warranty, with durations ranging from 1 to 3 years, depending on the product. Customers have the flexibility to extend their warranties before it expires.
